THE INSTITUTIONAL DIALOGUE PROJECT OF THE GREEN LIVING AREAS MISSION

Port Energy and Environment Management Plan (DEASP)

Top Reference Policy Instrument

Energy

Policy Objective

The objective is to integrate environmental and energy considerations into the strategic and operational management of the ports, focusing on sustainable development, innovation, and compliance with national and international environmental standards. The aim is to transform the ports into "Green Ports" characterized by low emissions, resilience, and sustainability.

Policy Description

The DEASP covers strategic environmental and energy planning for the ports of Genova and Savona. It includes measures for reducing carbon footprints, enhancing energy efficiency, and employing advanced digital technologies to improve port operations. The plan also emphasizes the transition to alternative energy sources like LNG and hydrogen, alongside infrastructure improvements for better connectivity and reduced environmental impact.

Project summary

The Institutional Dialogue Project of the Green Living Areas Mission seeks to enhance policy transfer through dialogue among policymakers and public stakeholders. It focuses on continuous policy improvement and transformation, and aims to establish long-term cooperation on public policy instruments at the Euro-Mediterranean level, ultimately improving citizens' quality of life.
